THE PURPOSE OF THE SUBJECT, LEARNING OUTCOMES:

The purpose of the course is to acquire the methods and scopes of the financial planning and get in practice of planning, financial statement analysis and problem solving based on case studies and the information learned.

This subject provides students the opportunity to apply these methods of analysis and planning that help the managerial and investment decision making and monitor the execution of these and evaluate success of decisions.

SUMMARY OF THE CONTENT OF THE SUBJECT

The purpose of the course is to acquire the methods and scopes of the financial planning and get in practice of planning, financial statement analysis and problem solving based on case studies and the information learned.

This subject provides students the opportunity to apply these methods of analysis and planning that help the managerial and investment decision making and monitor the execution of these and evaluate success of decisions.

STUDENT'S TASKS AND PLANNED LEARNING ACTIVITIES:

fieldwork, brainstorming, teamwork, presentation, research, calculation, analysis,

EVALUATION OF THE SUBJECT:

After completing the colloquium, the students will receive a test certificate in the exam period for the performance and practice to be performed together. The exam entry is a maximum of 50 points obtained by evaluating the practice and the maximum of 50 points obtained during the examination. The starting point of the colloquium is that the student's score on the internship must be at least 25 points. If the student does not achieve this score in practice, the course is unsuccessful and the student is obliged to re-enter the subject if the subject has been taken as a compulsory subject. If the score on the collocation does not reach 25 points, the exam mark is insufficient and the provisions of these rules shall apply correctly to the correction or completion of the course. In the case of repeated acquisition of the object, the previously obtained practical scores or other partial results are lost and can not be counted in the post-recruitment evaluation.

0 – 50% = (1) Fail

51 – 64% = (2) Pass

65 – 74% = (3) Satisfactory

75 – 84% = (4) Good

85 – 100% = (5) Excellent

The students can get offer grade in case of evaluation of activity and special task (home work).

Offered grade can be given: Yes.
